

Food Safety Compliance Agreement For Contracted Companies - Optional Document

We expect all of the companies that perform services in our mushroom production facilities, as well as those companies' employees, to help us protect the quality and integrity of our mushrooms, and to minimize the risk of chemical, physical, and/or biological contamination. Accordingly, each company that wishes to perform services in our mushroom production facilities must sign and return this Contracted Company Food Safety Compliance Agreement (Agreement) to _____ (Contracting Company) prior to performing such services.

By signing this Agreement, Contracting Company and _____ (Contracted Company) agree as follows:

1. Contracted Company agrees that it has reviewed Contracting Company's "Basic Food Safety Training for Contracted Employees at Mushroom Farms" document (Training Document), and fully understands the food safety rules and policies outlined in the Training Document.
2. Contracted Company agrees to (i) provide the Training Document to all of its employees who will perform work of any kind at Contracting Company's facilities before those employees begin to perform such work, (ii) train its employees, at its sole expense, to comply with the Training Document before those employees begin to perform work at Contracting Company's facilities, and (iii) supervise all of its employees who are performing work at Contracting Company's facilities to ensure that they are complying with the Training Document.
3. Contracted Company agrees that Contracting Company may update the Training Document as needed. If Contracting Company updates the Training Document, Contracted Company agrees to immediately re-train, at its sole expense, all of its employees who are performing work at Contracting Company's facilities to ensure that they will comply with the updated Training Document.
4. If Contracted Company fails to comply with this Agreement in any way, Contracting Company may, in its sole discretion, (i) terminate its contract(s) with Contracted Company, and (ii) remove Contracted Company from its "Approved Suppliers List." In addition, if Contracted Company fails to sign this Agreement, Contracting Company may, in its sole discretion, remove Contracted Company from its "Approved Suppliers List."
